

SALEM AL BARAMI STEEL INDUSTRIES LLC

"Committed To Serve You Better"

www.albaramigroup.com

About Us

- For over a decade, Salem Al Barami Steel Industries LLC, (BSI) a part of a 'Al Barami Group of Companies', Established in 1994, a 100% Omani company under the able leadership of **H.E. Salem Bin Khalfan Al Barami**
- **BSI**, is the only welded steel fabric manufacturing unit in the entire Sultanate of Oman, having ISO Certification ISO 9001:2015.
- Located ideally at Rusayl Industrial Estate, the factory is equipped with sophisticated Computer Numerical Controlled (CNC) machinery to manufacture steel fabric mesh in varying combinations of dimensions and sizes to suit individual needs. Thus providing speedier construction, uniform spacing, minimum wastage and reduced labour power with the associated advantage of savings in the total cost of the project.
- Special emphasis is on production of engineered mesh, instead of traditional reinforcements. The products have acknowledged advantages, in various structures in which reinforcement design lends itself to such conversion.

Products

BSI offers wide range of products which are listed below:

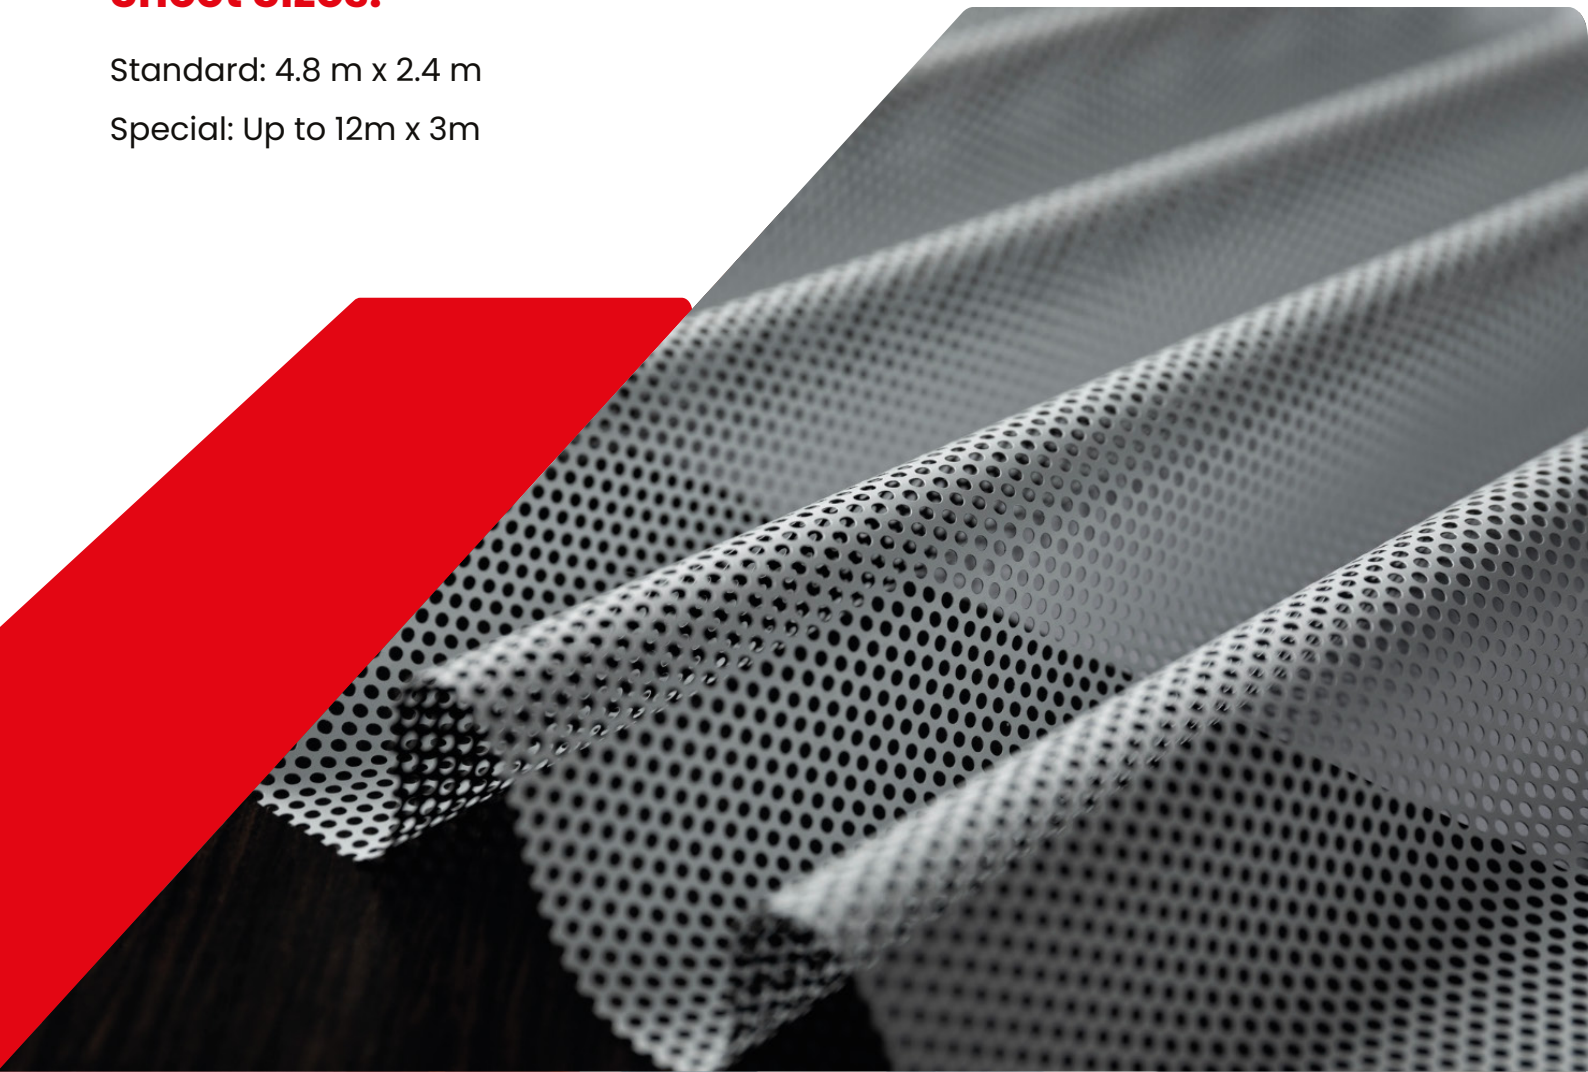

- Square Mesh Fabric
- Structural Mesh Fabric
- Long Mesh Fabric
- Custom Mesh Fabric

A detailed standard steel mesh specifications (Mesh reinforcement conforming to BS 4483- 2005) is listed in the next section. We can also take up any Engineering Fabric Mesh as per client's specification.

Sheet Sizes:

Standard: 4.8 m x 2.4 m

Special: Up to 12m x 3m

Standard Steel Mesh Specifications

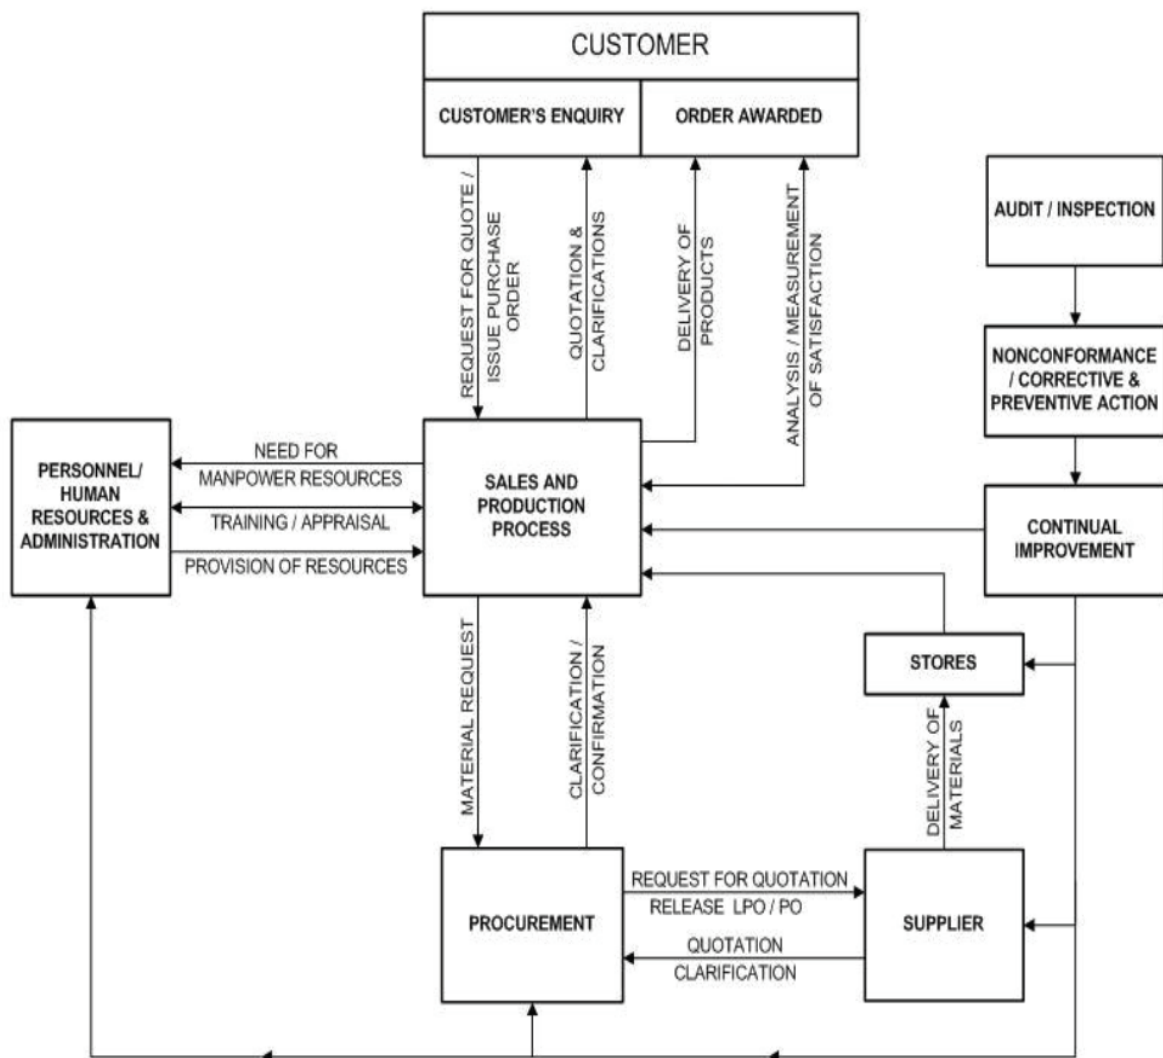

(Mesh Reinforcement Conforming to BS 4483 – 2005 Standards)

Type of Mesh	British Standard Ref	Wire Spacing (mm)		Wire Diameter (mm)		Cross Sectional area per meter width (mm ²)		Nominal Mass (Kg/m ²)
		Long	Cross	Long	Cross	Long	Cross	
SQUARE MESH FABRIC	A - 565	200	200	12	12	565	565	8.88
	A - 393	200	200	10	10	393	393	6.16
	A - 252	200	200	8	8	252	252	3.95
	A - 193	200	200	7	7	193	193	3.02
	A - 142	200	200	6	6	142	142	2.22
	A - 98	200	200	5	5	98	98	1.54
STRUCTURAL MESH FABRIC	B - 1131	100	200	12	8	1131	252	10.9
	B - 785	100	200	10	8	785	252	8.14
	B - 503	100	200	8	8	503	252	5.93
	B - 385	100	200	7	7	385	193	4.53
	B - 283	100	200	6	7	283	193	3.73
	B - 196	100	200	5	7	196	193	3.05

Process Flow

BSI has developed this Process Flow System, to cater the needs of its customers to its best quality at the lowest possible lead time.

OVERALL PORCESS FLOW DIAGRAM

Quality Assurance

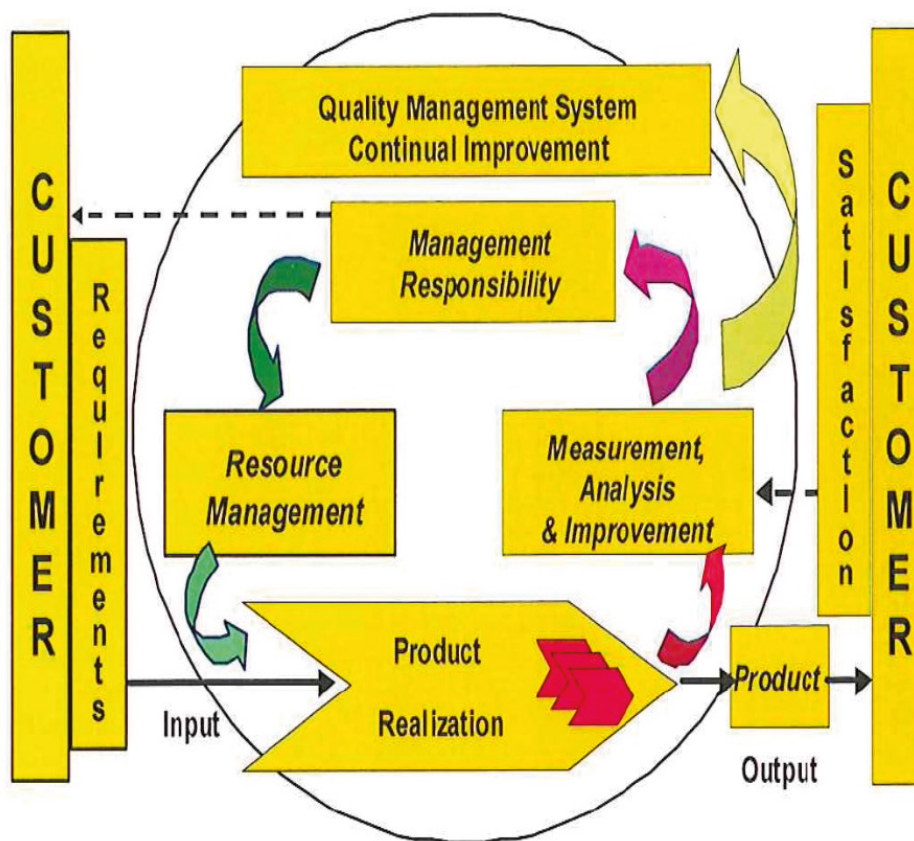

BSI has developed this Quality Management System, to satisfy the needs of its customers and to improve the system.

Quality Objectives

- To maintain the ISO 9001 certification by virtue of its quality assured
- To provide customer focused service
- To continually improve the product quality and service level

The scope of the quality system covers fabrication of "standard" and "custom made" BRC mesh reinforcement for applications such as Floor slabs, Retaining walls, Concrete walls, Box culverts, etc.

This quality system has been organized to comply with the International Standard ISO 9001:2015.
